

17 June 2019

Dear Mr. Hrehov,

Thank you for meeting with our group last Friday June 14 and listening to our Flight Test Report. We appreciate your knowledge, insights and questions that helped us understand the concept of flight testing more.

I enjoyed learning more about how flaps affected both Coefficient of Lift in addition to the Area of Wing in the lift equation, especially your insight about how flaps affect the camber and area of wing. I appreciate your experiences as a flight test engineer and creating this project for us to learn more about this field. Your knowledge about flight testing helped me understand more about the work that went behind the scenes to help a plane take off. I am extremely grateful that you shared your thoughts and advice with me and my team. I look forward to getting in touch with you in the future.

Sincerely,

Theresa
